**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant presented arguments in favor of allowance of the newly amended claims, according to the "Response" received December 20, 2007. According to the "Response" received December 20, 2007, the Applicant pointed out to the Examiner's satisfaction that the 35 U.S.C. 102(e) and 103(a) rejections over the primary reference of Chondroudis et al. (2004/0071888 A1) are not applicable since this reference does not represent prior art due to the priority dates involved. Therefore, this application is ready for allowance since no other prior art was found to exist.

With respect to independent claims 1, 5, 8, and 14, Chondroudis et al., as well as any other prior art, fail to disclose or make obvious, in combination with other recited features of the claim limitations, a method and apparatus for inspecting and forming a resistive film on a surface of a sample comprising the steps of: rotating the sample at a rotational speed with the sample being held in a substantial horizontal situation; dropping a liquid film material on the sample surface while the sample is being rotated, to form a resistive film thereon; and dropping a solvent which solves the resistive film formed on the sample surface while the sample is being rotated at a rotational speed, thereby dissolving a part of the resistive film to obtain the resistive film having a desired level of thickness.

The dependent claims 2-4, 6-7, 9-13, and 15-17, are allowed by virtue of their dependence upon claims 1, 5, 8, and 14, respectively.

***Conclusion***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
